

Dear WOLCS Families,

Last night, Governor Newsom agreed with the recommendation made by State Superintendent of Public Instruction, to keep all schools closed for the remainder of the school year. San Bernardino County Superintendent, also recommended that all schools in San Bernardino County follow this directive due to safety concerns and the need for continued social distancing.

WOLCS School Governing Board has discussed the stated recommendations and have prayed over the decision to continue our distance learning program through the end of our current school year. As state and national experts predict that the cases of COVID-19 will continue to increase during the months of April and May, WOLCS Governing Board and School Administration want to make every effort to do our part in protecting our community and decreasing the spread of COVID-19.

WOLCS' Distance Learning Program has been created to provide our students with all of the necessary instructional requirements to successfully complete their school year and afford them the ability to enter into the next grade level in August. The extended school closure will bring many questions about end of the year activities, picking up student supplies, returning borrowed textbooks and much more. We will create a safe plan for all of these areas and communicate it out to each of you soon.

Please know that you and our students are held in prayer daily. Your child's classroom teacher, school administration and our church family feel honored and privileged to serve a God who already knows our future and the future of our children. We thank you for your continued support and partnership and thank our Lord for being in this season Together!

WOLCS Administration
